

PAX A920Pro

Mobilising payments

The A920Pro is a portable POS system designed for flexible checkout in various settings, including retail and hospitality. It offers white-labeling capabilities for ISVs, allowing full customisation from ordering to branding. It supports running multiple applications simultaneously for managing orders, payments, and loyalty programs, accepting all payment methods and enhancing the merchant experience.

Key Function

Our Android terminal suite delivers a flexible, cloud-ready payment experience that supports diverse merchant workflows. Partners benefit from a consistent set of features across all devices:

Cloud integration

Reporting tool for reconciliation tasks.

Merchant level tokenisation

Ability for partner to build app onto terminal

White labelling capabilities

Tap, chip and PIN, swipe, QR wallet payments

Next day swap outs

Merchant support via Worldpay dedicated support team
